

EASY PREP TECHNICAL DATA SHEET

Easy Prep is a nonhazardous biodegradable dual purpose degreaser and adhesion promoter. Surface contaminants are more easily removed and surfaces left cleaner with Easy Prep. In addition, old epoxy coatings left on the surface are micro-etched providing a perfect surface for mechanical adhesion.

Coverage: 120 m²/liter (5,000 ft²/gallon)

INSTRUCTIONS:

1. Dilute Easy Prep 1:1 with fresh water
2. Apply liberally to surface and let stand 15-20 minutes.
3. Surface Prep: Hydro-blast , Slurry-blast or wire-abrade (needle gun) to cleanliness standard SSPC-SP2 or ST2 with surface profile of minimum 50 microns.
4. Final Rinse: Always fresh water rinse prior to coating application.

Technical Data

Packaging	5 Gal (19 liter) plastic pails
Color	Clear
Flash Point	> 200°F (94C)
Ph	11 -12
Biodegradability	Complete
Hazardous Content	None
